

and Providence had helped him out of them all, and therefore was not now disposed. Let us take time to consider the question, and then shew our sympathy and vote. He has done his duty to the best of his knowledge, and deserves the favor of a Committee of the Whole.

Mr. PERKINS, of N. H., rose amidst calls for the motion. He did not know why brethren could not be much more lenient, and yet he did not know what they were about.

Perkins would be tortured, if like some of those speakers two hours spent the question; but we are fresh and vigorous, and the speaker who has been here before us, and who is in favor of the Committee of the Whole, will be heard.

Mr. DOW was not willing to change his ground by

upon the proposition of the Committee.

In the course of his speech he said:

"In this case, the severe drought still continues, and the stock of moulases remaining on hand is being fed out to the cattle."

The WHEAT CROP.—The papers from the interior all speak of the forward and promising appearance of the forthcoming crops. A few extracts are appended. The Indiana *Rising Sun*, Blade of the 18th says:

"The prospect in this portion of the country for abundant crops is favorable. The wheat is unusually forward, and we are informed by farmers that from present indications it will be ready to harvest by the middle of June—some two or three weeks earlier than usual."

The Normal (O.) Reflector says that the

fields of wheat in that vicinity have been materially injured by the fly, amounting in some instances to a total loss. The following from the Springfield (Clark county, O.) Republic of the 17th inst. is an instance:

"The WHEAT CROP.—We regret to learn that this staple crop, which during the early part of the season promised so fairly, is now suffering considerably from the ravages of the Fly.

This is said to be the case in the Buck creek settlement.

NILES, Mich. May 13.

WHEAT CROP.—The Hessian fly is making depredations upon the wheat in this vicinity. One farmer informs us that they have destroyed twenty acres for him, and that the destruction is general in the vicinity of Portage Prairie.
